

Leave Room For Trucks

VERSE:

If you can't see the driver
Then you know you'd better move
If you're not in his mirror
It's a fast way to lose
If you can't see him
Then he can't see you!

Leave room for trucks!

VERSE:

Don't tail the gate of a
Forty-ton machine
Every 10 miles per hour
Leave a car length between
It might save your life
And keep your driving record clean

Leave room for trucks!

BRIDGE/BREAKDOWN:

Keep out of the No Zones
Don't talk on your cell phone
If you want to make it home
Leave room for trucks! (group shout on this line)

Don't drive like a jerk
Even if you're late for work
Always put your safety first
Leave room for trucks!

VERSE:

Even if a truck is slow
Even if you think you're sailin'
Slow down and share the road
Or the siren will come wailin'
Cause they'll give you a hefty fine
If they catch you tailin'

Leave room for trucks!

VERSE:

Signal when you pass
Yield to the right of way
Know the rules of the road
Or you know you're gonna pay
Keep your speed at the limit
And you'll drive another day

Leave room for trucks!
Buckle up! and
Leave room for trucks!
